

Who Do Sign Language Interpreters **Think** They Are?

Aaron Brace, CSC, CI & CT

who do I hope
Deaf people
think I am?

who do I let
others think I am?

who does
RID think I am?

who did **my IPP**
say I would be?

what habits
persist from my
early career?

who did
I think I would be
growing up?

who do I **say**
I am?

“If interpreters could **align**... who they **think**
they are
who they **are**
who they **say**
they are
...it would be **revolutionary**.”
